## Introduction

The City of North Pole has adopted by reference the *1997 Uniform Administrative Code*, including its methodology for calculating permit fees. According to the City of North Pole Municipal Code amendment to the Administrative Code:

*The determination of value or valuation under any of the provisions of these codes shall be made by the building official. The value to be used in computing the building permit and building plan review fees shall be the total value of all construction work for which the permit is issued as well as all finish work, painting, roofing, electrical, plumbing, heating, air-conditioning, elevators, fire-extinguishing systems and other permanent equipment. Valuation shall be determined in accordance with the latest edition of the Building Safety Journal data chart as published by the International Code Council or based on the final contract amount, whichever is greater. When calculating the valuation utilizing the building valuation data chart the regional modifier shall be (1.3). A copy of the bid award may be required by the building official. In any case the final determination of value or valuation under any of the provisions of these codes shall be made by the building official. (Title 15, Section 15.04.050)*

The Building Department has made the Building Fee Guide to help customers estimate permit and plan review fees. Any figures you generate are only estimates and the Building Department makes the final determination of permit fees. A worksheet is included with this guide to help you estimate your permit fees.

Each building project is unique and the permits required may vary. The permit fees for a project will depend upon the permits it requires. The total permit fees for a project may be a combination of one or more of the following:

- Building Permit and Plan Review
- Electrical Permit and Plan Review
- Mechanical Permit and Plan Review
- Plumbing Permit and Plan Review
- Storm Water Permit and Plan Review
- Utility Tie-In Permit and Utility Tie-In Inspection
- Excavation Permit and Plan Review
- Excavation Bond (returned if right-of-way restored)
- Fire Marshal Permit<sup>1</sup>

The simplest way to estimate Building Permit and Plan Review fees is to use the Building Permit Fee Estimation Table. Using this method does not provide estimates for any other permits that the Building Department may require for your project. If you want to refine your cost estimate, you can find additional guidance and resources in this guide.

---

<sup>1</sup> Multi-Family, Commercial, Industrial and Institutional projects may require a Fire Marshal's Permit. The Building Department DOES NOT issue Fire Marshal Permits. Contact the Fire Marshal's office at 907-451-5200 to determine if your project requires a Fire Marshal Permit.

## Determining Value of Project

The complexity of your project and how good an estimate you want will affect the effort you will need to invest when estimating the permitting fees. Below are directions you can use to help you estimate the value of your project and to calculate permit fees.

### *Step 1: Determine the total value of your project.*

There are two approaches to estimate the value of a project—square footage cost of the project or contractor’s bid price. The Building Department most frequently uses the square foot approach to estimate the value of projects like new construction of a building or an addition. The Building Department most frequently uses the contractor’s bid approach for projects like renovation of a building, a “small” project like replacing a roof, adding a deck or installation of new heating system. The contractor’s bid approach is also used for very large and complex projects where the square foot approach does not provide a reliable valuation. By City Code, the City uses the method that assigns the highest value to your project. The Building Department makes the final determination of the value of the improvement.

### Square Footage Approach

First, identify what “Group” best describes your project. According to the *2009 International Building Code* (IBC), Chapter 3: Use and Occupancy Classification, Section 302 Classification:

*Structures or portions of structures shall be classified with respect to occupancy in one or more of the groups listed below. A room or space that is intended to be occupied at different times for different purposes shall comply with all of the requirements that are applicable to each of the purposes for which the room or space will be occupied. Structures with multiple occupancies or uses shall comply with Section 508. Where a structure is proposed for a purpose that is not specifically provided for in this code, such structure shall be classified in the group that the occupancy most nearly resembles, according to the fire safety and relative hazard involved.*

1. *Assembly (see Section 303): Groups A-1, A-2, A-3, A-4 and A-5*
2. *Business (see Section 304): Group B*
3. *Educational (see Section 305): Group E*
4. *Factory and Industrial (see Section 306): Groups F-1 and F-2*
5. *High Hazard (see Section 307): Groups H-1, H-2, H-3, H-4 and H-5*
6. *Institutional (see Section 308): Groups I-1, I-2, I-3 and I-4*
7. *Mercantile (see Section 309): Group M*
8. *Residential (see Section 310): Groups R-1, R-2, R-3 and R-4*
9. *Storage (see Section 311): Groups S-1 and S-2*
10. *Utility and Miscellaneous (see Section 312): Group U*

You can find summary descriptions of the different groups in Appendix A: Building Groups List. Review the Building Groups List to identify the group that most closely matches your project.

Second, determine the Type of Construction you will use for your project. According to the 2009 *International Building Code* Council, Chapter 6, Section 602, Construction Classification:

*Buildings and structures erected or to be erected, altered or extended in height or area shall be classified in one of the five construction types defined in Sections 602.2 through 602.5. The building elements shall have a fire-resistance rating not less than that specified in Table 601 and exterior walls shall have a fire-resistance rating not less than that specified in Table 602. Where required to have a fire-resistance rating by Table 601, building elements shall comply with the applicable provisions of Section 703.2. The protection of openings, ducts and air transfer openings in building elements shall not be required unless required by other provisions of this code.*

There are five types identified by Roman numerals—I, II, III, IV and V. Most of these types have sub-types labeled A or B. Historically, most projects in the City of North Pole have been Type VB. You can use the IBC definitions to identify your Type of Construction. The sections of the IBC related to determining the building type can be found in Appendix B: Types of Construction.

Third, use Table 1 Square Foot Construction Cost to determine square foot cost of your project. The Group is listed in the left-hand column and Type Construction is listed across the top of the table. Where the two categories intersect is the square foot cost of your project. Multiple the square footage of your project by the square foot cost to get an estimated value of the improvement. All tables are found at the back of the guide.

### Contractor's Bid Approach

Not all projects' value can be easily determined with the Square Footage Approach. As described above. If you have a contractor's bid you can use this value to estimate your project's permit fees. The Building Department will require you to submit this bid if you want to use this approach to determine the value of your improvement.

### ***Step 2: Calculate Building Permit Fee and Plan Review Fee***

With the value of your project determined in Step 1, you can estimate your Building Permit Fee. The Building Department uses Table 2 Building Permit Fees to calculate a Building Permit Fee. You can do the math as described in Table 2 to estimate the value of your project. A simpler way to estimate the Building Permit Fee or your project, is to use Table 3 Building Permit Fee Estimation Table. In the right-hand column of Table 3, find the value that most closely matches the value of your project. Read across the table to find the estimated Building Permit Fee and Plan Review Fee. The Building Department calculates the Plan Review Fee as 75% of the Building Permit Fee.

### ***Step 3: Calculate Electrical, Mechanical and Plumbing Permit Fees***

The Building Department uses the 1997 *Uniform Administrative Code* tables to determine Electrical, Mechanical and Plumbing Permit Fees. The Building Department calculates the plan

review fees for each of these permits as 25% of the individual permit fees. The tables the Building Department uses to calculate these fees are the following:

Table 4. Electrical Permit Fees

Table 5. Mechanical Permit Fees

Table 6. Plumbing Permit Fees

#### ***Step 4: Additional Permits***

Depending upon your project, other permitting fees may apply.

Step 4a. If your project is privately funded; it will disturb a cumulative acre or more of ground; and storm water runoff from the project will flow into “waters of the United States” your project is likely to require a storm water permit. The North Pole Municipal Code, Title 15; Chapter 15.66 Construction Site Storm Water Runoff details storm water permitting requirements. In addition, if your project will discharge storm water runoff directly into “waters of the US” or the storm water conveyance system, it must comply with Title 15; Chapter 15.74 Post-Construction Storm Water Management. If your project requires a storm water permit, you will also be required to submit a storm water pollution prevention plan (SWPPP). Storm Water Permit Fees include SWPPP plan review and inspection fees. You can estimate these fees based upon Table 7 Storm Water Permit Fees.

#### **Step 4b. Water and/or Sewer Utility Connection Fees**

If your project includes connecting to the City of North Pole water and/or sewer system, you must get a Utility Tie-In Permit and have the work inspected by the Utility Department. According to the North Pole Municipal Code, any occupied structure within 200 feet of a water or sewer main must connect to the utility system; otherwise, the property owner will be charged monthly the flat utility rate. See the North Pole Municipal Code, Title 13, Chapter 13.12; Section 13.12.090 Compulsory connection to City water and sewer utility. Utility tie-in fees are presented in Table 8 Utility Tie-In Fees.

#### **Step 4c. Excavation of a City Right-of-Way Fees**

If your project includes excavation of a City-owned right-of-way (ROW), for example, road, sidewalk or alley, there are fees associated with the excavation. Excavation of a City ROW also requires submission of a bond to ensure that the ROW is reconstructed. You can estimate excavation permit fees using Table 9a Excavation Permit Fees and the required Excavation Bond using Table 9b.

## Appendix A: IBC Building Group Summary Descriptions

### ASSEMBLY GROUP A

**Assembly Group A.** Assembly Group A occupancy includes, among others, the use of a building or structure, or a portion thereof, for the gathering of persons for purposes such as civic, social or religious functions; recreation, food or drink consumption or awaiting transportation.

**A-1** Assembly uses, usually with fixed seating, intended for the production and viewing of the performing arts or motion pictures including, but not limited to:

Motion picture theaters	Television and radio studios admitting an audience
Symphony and concert halls	Theaters

**A-2** Assembly uses intended for food and/or drink consumption including, but not limited to:

Banquet halls	Restaurants
Night clubs	Taverns and bars

**A-3** Assembly uses intended for worship, recreation or amusement and other assembly uses not classified elsewhere in Group A including, but not limited to:

Amusement arcades	Indoor swimming pools (without spectator seating)
Art galleries	Indoor tennis courts (without spectator seating)
Bowling alleys	Lecture halls
Community halls	Libraries
Courtrooms	Museums
Dance halls (not including food or drink consumption)	Places of religious worship
Exhibition halls	Pool and billiard parlors
Funeral parlors	Waiting areas in transportation terminals
Gymnasiums (without spectator seating)	

**A-4** Assembly uses intended for viewing of indoor sporting events and activities with spectator seating including, but not limited to:

Arenas	Swimming pools
Skating rinks	Tennis courts

**A-5** Assembly uses intended for participation in or viewing outdoor activities including, but not limited to:

Amusement park structures	Grandstands
<i>Bleachers</i>	Stadiums

## **BUSINESS GROUP B**

**Business Group B.** Business Group B occupancy includes, among others, the use of a building or structure, or a portion thereof, for office, professional or service-type transactions, including storage of records and accounts. Business occupancies shall include, but not be limited to, the following:

Airport traffic control towers	Electronic data processing
Ambulatory health care facilities	Laboratories: testing and research
Animal hospitals, kennels and pounds	Motor vehicle showrooms
Banks	Post offices
Barber and beauty shops	Print shops
Car wash	Professional services (architects, attorneys, dentists, physicians, engineers, etc.)
Civic administration	Radio and television stations
Clinic—outpatient	Telephone exchanges
Dry cleaning and laundries: pick-up and delivery stations and self-service	Training and skill development not within a school or academic program
Educational occupancies for students above the 12th grade	

## **EDUCATIONAL GROUP E**

**Educational Group E.** Educational Group E occupancy includes, among others, the use of a building or structure, or a portion thereof, by six or more persons at any one time for educational purposes through the 12th grade. Religious educational rooms and religious auditoriums, which are accessory to *places of religious worship* and have *occupant loads* of less than 100, shall be classified as A-3 occupancies.

## **FACTORY GROUP F**

**Factory Industrial Group F.** Factory Industrial Group F occupancy includes, among others, the use of a building or structure, or a portion thereof, for assembling, disassembling, fabricating, finishing, manufacturing, packaging, repair or processing operations that are not classified as a Group H hazardous or Group S storage occupancy.

### **Factory Industrial F-1 Moderate-hazard Occupancy.**

Factory industrial uses which are not classified as Factory Industrial F-2 Low Hazard shall be classified as F-1 Moderate Hazard and shall include, but not be limited to, the following:

Aircraft (manufacturing, not to include repair)	Jute products
Appliances	Laundries
Athletic equipment	Leather products
Automobiles and other motor vehicles	Machinery
Bakeries	Metals
Beverages: over 16-percent alcohol content	Millwork (sash and door)
Bicycles	Motion pictures and television filming (without spectators)
Boats	Musical instruments
Brooms or brushes	Optical goods
Business machines	Paper mills or products
Cameras and photo equipment	Photographic film
Canvas or similar fabric	Plastic products
Carpets and rugs (includes cleaning)	Printing or publishing
Clothing	Recreational vehicles
Construction and agricultural machinery	Refuse incineration
Disinfectants	Shoes
Dry cleaning and dyeing	Soaps and detergents
Electric generation plants	Textiles
Electronics	Tobacco
Engines (including rebuilding)	Trailers
Food processing	Upholstering
Furniture	Wood; distillation
Hemp products	Woodworking (cabinet)

**Factory Industrial F-2 Low-hazard Occupancy.** Factory industrial uses that involve the fabrication or manufacturing of noncombustible materials which during finishing, packing or processing do not involve a significant fire hazard shall be classified as F-2 occupancies and shall include, but not be limited to, the following:

Beverages: up to and including 16-percent alcohol content	Glass products
Brick and masonry	Gypsum
Ceramic products	Ice
Foundries	Metal products (fabrication and assembly)

## **HIGH-HAZARD GROUP H**

**High-hazard Group H.** High-hazard Group H occupancy includes, among others, the use of a building or structure, or a portion thereof, that involves the manufacturing, processing, generation or storage of materials that constitute a physical or health hazard. Hazardous occupancies are classified in Groups H-1, H-2, H-3, H-4 and H-5 the *International Fire Code*. Hazardous materials stored, or used on top of roofs or canopies shall be classified as outdoor storage or use and shall comply with the *International Fire Code*.

## INSTITUTIONAL GROUP I

**Institutional Group I.** Institutional Group I occupancy includes, among others, the use of a building or structure, or a portion thereof, in which people are cared for or live in a supervised environment, having physical limitations because of health or age are harbored for medical treatment or other care or treatment, or in which people are detained for penal or correctional purposes or in which the liberty of the occupants is restricted. Institutional occupancies shall be classified as Group I-1, I-2, I-3 or I-4.

**Group I-1.** This occupancy shall include buildings, structures or parts thereof housing more than 16 persons, on a 24-hour basis, who because of age, mental disability or other reasons, live in a supervised residential environment that provides *personal care services*. The occupants are capable of responding to an emergency situation without physical assistance from staff. This group shall include, but not be limited to, the following:

Alcohol and drug centers	Group homes
Assisted living facilities	Halfway houses
Congregate care facilities	Residential board and care facilities
Convalescent facilities	Social rehabilitation facilities

A facility such as the above with five or fewer persons shall be classified as a Group R-3 or shall comply with the *International Residential Code*. A facility such as above, housing at least six and not more than 16 persons, shall be classified as Group R-4.

**Group I-2.** This occupancy shall include buildings and structures used for medical, surgical, psychiatric, nursing or custodial care for persons who are not capable of self-preservation. This group shall include, but not be limited to, the following:

Child care facilities	Mental hospitals
Detoxification facilities	Nursing homes
Hospitals	

**Group I-3.** This occupancy shall include buildings and structures that are inhabited by more than five persons who are under restraint or security. An I-3 facility is occupied by persons who are generally incapable of self-preservation due to security measures not under the occupants' control. This group shall include, but not be limited to, the following:

Correctional centers	Prerelease centers
Detention centers	Prisons
Jails	Reformatories

## **MERCANTILE GROUP M**

**309.1 Mercantile Group M.** Mercantile Group M occupancy includes, among others, the use of a building or structure or a portion thereof, for the display and sale of merchandise and involves stocks of goods, wares or merchandise incidental to such purposes and accessible to the public.

Mercantile occupancies shall include, but not be limited to, the following:

Department stores

Drug stores

Markets

Motor fuel-dispensing facilities

Retail or wholesale stores

Sales rooms

## RESIDENTIAL GROUP R

**310.1 Residential Group R.** Residential Group R includes, among others, the use of a building or structure, or a portion thereof, for sleeping purposes when not classified as an Institutional Group I or when not regulated by the *International Residential Code* in accordance with Section 101.2. Residential occupancies shall include the following:

**R-1** Residential occupancies containing *sleeping units* where the occupants are primarily transient in nature, including:

*Boarding houses* (transient) Hotels (transient) Motels (transient) *Congregate living facilities* (transient) with 10 or fewer occupants are permitted to comply with the construction requirements for Group R-3.

**R-2** Residential occupancies containing *sleeping units* or more than two *dwelling units* where the occupants are primarily permanent in nature, including:

Apartment houses <i>Boarding houses</i> (nontransient)	Monasteries
Convents	Motels (nontransient)
Dormitories	Vacation timeshare properties
Fraternities and sororities	<i>Congregate living facilities</i> with 16 or fewer occupants are permitted to comply with the construction requirements for Group R-3.
Hotels (nontransient)	
Live/work units	

**R-3** Residential occupancies where the occupants are primarily permanent in nature and not classified as Group R-1, R-2, R-4 or I, including: Buildings that do not contain more than two *dwelling units*. Adult care facilities that provide accommodations for five or fewer persons of any age for less than 24 hours. Child care facilities that provide accommodations for five or fewer persons of any age for less than 24 hours. *Congregate living facilities* with 16 or fewer persons. Adult care and child care facilities that are within a single-family home are permitted to comply with the *International Residential Code*.

**R-4** Residential occupancies shall include buildings arranged for occupancy as residential care/assisted living facilities including more than five but not more than 16 occupants, excluding staff. Group R-4 occupancies shall meet the requirements for construction as defined for Group R-3, except as otherwise provided for in this code or shall comply with the *International Residential Code* provided the building is protected by an *automatic sprinkler system*.

## STORAGE GROUP S

**Storage Group S.** Storage Group S occupancy includes, among others, the use of a building or structure, or a portion thereof, for storage that is not classified as a hazardous occupancy.

**Moderate-hazard storage, Group S-1.** Buildings occupied for storage uses that are not classified as Group S-2, including, but not limited to, storage of the following:

Aerosols, Levels 2 and 3 Aircraft hangar (storage and repair)	Glues, mucilage, pastes and size
Bags: cloth, burlap and paper	Grains
Bamboos and rattan	Horns and combs, other than celluloid
Baskets	Leather
Belting: canvas and leather	Linoleum
Books and paper in rolls or packs	Lumber
Boots and shoes	Motor vehicle repair garages
Buttons, including cloth covered, pearl or bone	Photo engravings
Cardboard and cardboard boxes	Resilient flooring
Clothing, woolen wearing apparel	Silks
Cordage	Soaps
Dry boat storage (indoor)	Sugar
Furniture	Tires, bulk storage of
Furs	Tobacco, cigars, cigarettes and snuff
	Upholstery and mattresses
	Wax candles

**Low-hazard storage, Group S-2.** Includes, among others, buildings used for the storage of noncombustible materials such as products on wood pallets or in paper cartons with or without single thickness divisions; or in paper wrappings. Such products are permitted to have a negligible amount of plastic *trim*, such as knobs, handles or film wrapping. Group S-2 storage uses shall include, but not be limited to, storage of the following:

Asbestos	Glass bottles, empty or filled with noncombustible liquids
Beverages up to and including 16-percent alcohol in metal, glass or ceramic containers	Gypsum board
Cement in bags	Inert pigments
Chalk and crayons	Ivory
Dairy products in nonwaxed coated paper containers	Meats
Dry cell batteries	Metal cabinets
Electrical coils	Metal desks with plastic tops and <i>trim</i>
Electrical motors	Metal parts
Empty cans	Metals
Food products	Mirrors
Foods in noncombustible containers	Oil-filled and other types of distribution transformers
Fresh fruits and vegetables in nonplastic trays or containers	Parking garages, open or enclosed
Frozen foods	Porcelain and pottery
Glass	Stoves
	Talc and soapstones
	Washers and dryers

## UTILITY AND MISCELLANEOUS GROUP U

**General.** Buildings and structures of an accessory character and miscellaneous structures not classified in any specific occupancy shall be constructed, equipped and maintained to conform to the requirements of this code commensurate with the fire and life hazard incidental to their occupancy. Group U shall include, but not be limited to, the following:

Agricultural buildings	Greenhouses
Aircraft hangars, accessory to a one- or two-family residence	Livestock shelters
Barns	Private garages
Carports	Retaining walls
Fences more than 6 feet (1829 mm) high	Sheds
Grain silos, accessory to a residential occupancy	Stables
	Tanks
	Towers

# Appendix B: IBC Type of Construction Descriptions

## CHAPTER 6

### TYPES OF CONSTRUCTION

#### SECTION 601 GENERAL

**601.1 Scope.** The provisions of this chapter shall control the classification of buildings as to type of construction.

#### SECTION 602 CONSTRUCTION CLASSIFICATION

**602.1 General.** Buildings and structures erected or to be erected, altered or extended in height or area shall be classified in one of the five construction types defined in Sections 602.2 through 602.5. The building elements shall have a *fire-resistance rating* not less than that specified in Table 601 and exterior walls shall have a *fire-resistance rating* not less than that specified in Table 602. Where required to have a *fire-resistance rating* by Table 601, building elements shall comply with the applicable provisions of Section 703.2. The protection of openings, ducts and air transfer openings in building elements shall not be required unless required by other provisions of this code.

**602.1.1 Minimum requirements.** A building or portion thereof shall not be required to conform to the details of a type of construction higher than that type which meets the minimum requirements based on occupancy even though certain features of such a building actually conform to a higher type of construction.

**602.2 Types I and II.** Types I and II construction are those types of construction in which the building elements listed in Table 601 are of noncombustible materials, except as permitted in Section 603 and elsewhere in this code.

**602.3 Type III.** Type III construction is that type of construction in which the exterior walls are of noncombustible materials and the interior building elements are of any material permitted by this code. *Fire-retardant-treated wood* framing complying with Section 2303.2 shall be permitted within *exterior wall* assemblies of a 2-hour rating or less.

**602.4 Type IV.** Type IV construction (Heavy Timber, HT) is that type of construction in which the exterior walls are of noncombustible materials and the interior building elements are of solid or laminated wood without concealed spaces. The

**TABLE 601  
FIRE-RESISTANCE RATING REQUIREMENTS FOR BUILDING ELEMENTS (hours)**

BUILDING ELEMENT	TYPE I		TYPE II		TYPE III		TYPE IV	TYPE V	
	A	B	A <sup>d</sup>	B	A <sup>d</sup>	B	HT	A <sup>d</sup>	B
Primary structural frame <sup>g</sup> (see Section 202)	3 <sup>a</sup>	2 <sup>a</sup>	1	0	1	0	HT	1	0
Bearing walls Exterior <sup>d, g</sup> Interior	3 3 <sup>a</sup>	2 2 <sup>a</sup>	1 1	0 0	2 1	2 0	2 1/HT	1 1	0 0
Nonbearing walls and partitions Exterior	See Table 602								
Nonbearing walls and partitions Interior <sup>e</sup>	0	0	0	0	0	0	See Section 602.4.6	0	0
Floor construction and secondary members (see Section 202)	2	2	1	0	1	0	HT	1	0
Roof construction and secondary members (see Section 202)	1½ <sup>b</sup>	1 <sup>b, c</sup>	1 <sup>b, c</sup>	0 <sup>c</sup>	1 <sup>b, c</sup>	0	HT	1 <sup>b, c</sup>	0

For SI: 1 foot = 304.8 mm.

- a. Roof supports: Fire-resistance ratings of primary structural frame and bearing walls are permitted to be reduced by 1 hour where supporting a roof only.
- b. Except in Group F-1, H, M and S-1 occupancies, fire protection of structural members shall not be required, including protection of roof framing and decking where every part of the roof construction is 20 feet or more above any floor immediately below. Fire-retardant-treated wood members shall be allowed to be used for such unprotected members.
- c. In all occupancies, heavy timber shall be allowed where a 1-hour or less fire-resistance rating is required.
- d. An approved automatic sprinkler system in accordance with Section 903.3.1.1 shall be allowed to be substituted for 1-hour fire-resistance-rated construction, provided such system is not otherwise required by other provisions of the code or used for an allowable area increase in accordance with Section 506.3 or an allowable height increase in accordance with Section 504.2. The 1-hour substitution for the fire resistance of exterior walls shall not be permitted.
- e. Not less than the fire-resistance rating required by other sections of this code.
- f. Not less than the fire-resistance rating based on fire separation distance (see Table 602).
- g. Not less than the fire-resistance rating as referenced in Section 704.10

**TYPES OF CONSTRUCTION**

details of Type IV construction shall comply with the provisions of this section. *Fire-retardant-treated wood* framing complying with Section 2303.2 shall be permitted within exterior wall assemblies with a 2-hour rating or less. Minimum solid sawn nominal dimensions are required for structures built using Type IV construction (HT). For glued-laminated members the equivalent net finished width and depths corresponding to the minimum nominal width and depths of solid sawn lumber are required as specified in Table 602.4.

**602.4.1 Columns.** Wood columns shall be sawn or glued laminated and shall not be less than 8 inches (203 mm), nominal, in any dimension where supporting floor loads and not less than 6 inches (152 mm) nominal in width and not less than 8 inches (203 mm) nominal in depth where supporting roof and ceiling loads only. Columns shall be continuous or superimposed and connected in an *approved* manner.

**602.4.2 Floor framing.** Wood beams and girders shall be of sawn or glued-laminated timber and shall be not less than 6 inches (152 mm) nominal in width and not less than 10 inches (254 mm) nominal in depth. Framed sawn or glued-laminated timber arches, which spring from the floor line and support floor loads, shall be not less than 8 inches (203 mm) nominal in any dimension. Framed timber trusses

supporting floor loads shall have members of not less than 8 inches (203 mm) nominal in any dimension.

**602.4.3 Roof framing.** Wood-frame or glued-laminated arches for roof construction, which spring from the floor line or from grade and do not support floor loads, shall have members not less than 6 inches (152 mm) nominal in width and have not less than 8 inches (203 mm) nominal in depth for the lower half of the height and not less than 6 inches (152 mm) nominal in depth for the upper half. Framed or glued-laminated arches for roof construction that spring from the top of walls or wall abutments, framed timber trusses and other roof framing, which do not support floor loads, shall have members not less than 4 inches (102 mm) nominal in width and not less than 6 inches (152 mm) nominal in depth. Spaced members shall be permitted to be composed of two or more pieces not less than 3 inches (76 mm) nominal in thickness where blocked solidly throughout their intervening spaces or where spaces are tightly closed by a continuous wood cover plate of not less than 2 inches (51 mm) nominal in thickness secured to the underside of the members. Splice plates shall be not less than 3 inches (76 mm) nominal in thickness. Where protected by *approved* automatic sprinklers under the roof deck, framing members shall be not less than 3 inches (76 mm) nominal in width.

**TABLE 602  
FIRE-RESISTANCE RATING REQUIREMENTS FOR EXTERIOR WALLS BASED ON FIRE SEPARATION DISTANCE<sup>a, e</sup>**

FIRE SEPARATION DISTANCE = X (feet)	TYPE OF CONSTRUCTION	OCCUPANCY GROUP H <sup>f</sup>	OCCUPANCY GROUP F-1, M, S-1 <sup>g</sup>	OCCUPANCY GROUP A, B, E, F-2, I, R, S-2 <sup>g</sup> , U <sup>b</sup>
X < 5 <sup>c</sup>	All	3	2	1
5 ≤ X < 10	IA	3	2	1
	Others	2	1	1
10 ≤ X < 30	IA, IB	2	1	1 <sup>d</sup>
	IIB, VB	1	0	0
	Others	1	1	1 <sup>d</sup>
X ≥ 30	All	0	0	0

For SI: 1 foot = 304.8 mm.

- a. Load-bearing exterior walls shall also comply with the fire-resistance rating requirements of Table 601.
- b. For special requirements for Group U occupancies, see Section 406.1.2.
- c. See Section 706.1.1 for party walls.
- d. Open parking garages complying with Section 406 shall not be required to have a fire-resistance rating.
- e. The fire-resistance rating of an exterior wall is determined based upon the fire separation distance of the exterior wall and the story in which the wall is located.
- f. For special requirements for Group H occupancies, see Section 415.3.
- g. For special requirements for Group S aircraft hangars, see Section 412.4.1.

**TABLE 602.4  
WOOD MEMBER SIZE**

MINIMUM NOMINAL SOLID SAWN SIZE		MINIMUM GLUED-LAMINATED NET SIZE	
Width, inch	Depth, inch	Width, inch	Depth, inch
8	8	6 3/4	8 1/4
6	10	5	10 1/2
6	8	5	8 1/4
6	6	5	6
4	6	3	6 7/8

For SI: 1 inch = 25.4 mm.

**602.4.4 Floors.** Floors shall be without concealed spaces. Wood floors shall be of sawn or glued-laminated planks, splined or tongue-and-groove, of not less than 3 inches (76 mm) nominal in thickness covered with 1-inch (25 mm) nominal dimension tongue and groove flooring, laid cross-wise or diagonally, or 0.5-inch (12.7 mm) particleboard or planks not less than 4 inches (102 mm) nominal in width set on edge close together and well spiked and covered with 1-inch (25 mm) nominal dimension flooring or <sup>15</sup>/<sub>32</sub>-inch (12 mm) wood structural panel or 0.5-inch (12.7 mm) particleboard. The lumber shall be laid so that no continuous line of joints will occur except at points of support. Floors shall not extend closer than 0.5 inch (12.7 mm) to walls. Such 0.5-inch (12.7 mm) space shall be covered by a molding fastened to the wall and so arranged that it will not obstruct the swelling or shrinkage movements of the floor. Corbeling of masonry walls under the floor shall be permitted to be used in place of molding.

**602.4.5 Roofs.** Roofs shall be without concealed spaces and wood roof decks shall be sawn or glued laminated, splined or tongue-and-groove plank, not less than 2 inches (51 mm) nominal in thickness, 1 <sup>1</sup>/<sub>8</sub>-inch-thick (32 mm) wood structural panel (exterior glue), or of planks not less than 3 inches (76 mm) nominal in width, set on edge close together and laid as required for floors. Other types of decking shall be permitted to be used if providing equivalent *fire resistance* and structural properties.

**602.4.6 Partitions.** Partitions shall be of solid wood construction formed by not less than two layers of 1-inch (25 mm) matched boards or laminated construction 4 inches (102 mm) thick, or of 1-hour fire-resistance-rated construction.

**602.4.7 Exterior structural members.** Where a horizontal separation of 20 feet (6096 mm) or more is provided, wood columns and arches conforming to heavy timber sizes shall be permitted to be used externally.

**602.5 Type V.** Type V construction is that type of construction in which the structural elements, *exterior walls* and interior walls are of any materials permitted by this code.

### SECTION 603 COMBUSTIBLE MATERIAL IN TYPE I AND II CONSTRUCTION

**603.1 Allowable materials.** Combustible materials shall be permitted in buildings of Type I or II construction in the following applications and in accordance with Sections 603.1.1 through 603.1.3:

1. *Fire-retardant-treated wood* shall be permitted in:
  - 1.1. Nonbearing partitions where the required *fire-resistance rating* is 2 hours or less.
  - 1.2. Nonbearing *exterior walls* where no fire rating is required.
  - 1.3. Roof construction, including girders, trusses, framing and decking.

**Exception:** In buildings of Type IA construction exceeding two stories above grade plane,

*fire-retardant-treated wood* is not permitted in roof construction when the vertical distance from the upper floor to the roof is less than 20 feet (6096 mm).

2. Thermal and acoustical insulation, other than foam plastics, having a *flame spread index* of not more than 25.

**Exceptions:**

1. Insulation placed between two layers of noncombustible materials without an intervening airspace shall be allowed to have a *flame spread index* of not more than 100.
2. Insulation installed between a finished floor and solid decking without intervening airspace shall be allowed to have a *flame spread index* of not more than 200.
3. Foam plastics in accordance with Chapter 26.
4. Roof coverings that have an A, B or C classification.
5. *Interior floor finish* and floor covering materials installed in accordance with Section 804.
6. Millwork such as doors, door frames, window sashes and frames.
7. *Interior wall and ceiling finishes* installed in accordance with Sections 801 and 803.
8. *Trim* installed in accordance with Section 806.
9. Where not installed over 15 feet (4572 mm) above grade, show windows, nailing or furring strips and wooden bulkheads below show windows, including their frames, aprons and show cases.
10. Finish flooring installed in accordance with Section 805.
11. Partitions dividing portions of stores, offices or similar places occupied by one tenant only and that do not establish a *corridor* serving an *occupant load* of 30 or more shall be permitted to be constructed of *fire-retardant-treated wood*, 1-hour fire-resistance-rated construction or of wood panels or similar light construction up to 6 feet (1829 mm) in height.
12. Stages and platforms constructed in accordance with Sections 410.3 and 410.4, respectively.
13. Combustible *exterior wall coverings*, balconies and similar projections and bay or oriel windows in accordance with Chapter 14.
14. Blocking such as for handrails, millwork, cabinets and window and door frames.
15. Light-transmitting plastics as permitted by Chapter 26.
16. Mastics and caulking materials applied to provide flexible seals between components of *exterior wall* construction.
17. Exterior plastic veneer installed in accordance with Section 2605.2.
18. Nailing or furring strips as permitted by Section 803.11.

## TYPES OF CONSTRUCTION

19. Heavy timber as permitted by Note c to Table 601 and Sections 602.4.7 and 1406.3.
20. Aggregates, component materials and admixtures as permitted by Section 703.2.2.
21. Sprayed fire-resistant materials and intumescent and mastic fire-resistant coatings, determined on the basis of *fire-resistance* tests in accordance with Section 703.2 and installed in accordance with Sections 1704.12 and 1704.13, respectively.
22. Materials used to protect penetrations in fire-resistance-rated assemblies in accordance with Section 713.
23. Materials used to protect joints in fire-resistance-rated assemblies in accordance with Section 714.
24. Materials allowed in the concealed spaces of buildings of Types I and II construction in accordance with Section 717.5.
25. Materials exposed within plenums complying with Section 602 of the *International Mechanical Code*.

**603.1.1 Ducts.** The use of nonmetallic ducts shall be permitted when installed in accordance with the limitations of the *International Mechanical Code*.

**603.1.2 Piping.** The use of combustible piping materials shall be permitted when installed in accordance with the limitations of the *International Mechanical Code* and the *International Plumbing Code*.

**603.1.3 Electrical.** The use of electrical wiring methods with combustible insulation, tubing, raceways and related components shall be permitted when installed in accordance with the limitations of this code.

**Table 2: Building Permit Fee Calculator**

<b>Total project valuation</b>	<b>Fee calculation formula</b>
\$1.00 to \$500	\$23.50
\$501 to \$2,000	\$23.50 for the first \$500 plus \$3.05 for each additional \$100, or fraction thereof, to and including \$2,000
\$2,001 to \$25,000	\$69.25 for the first \$2,000 plus \$ 14.00 for each additional \$1,000, or fraction thereof, to and including \$25,000
\$25,001 to \$50,000	\$391.75 for the first \$25,000 plus \$10.10 for each additional \$1,000, or fraction thereof to and including \$50,000
\$50,001 to \$100,000	\$643.75 for the first \$50,000 plus for each additional or fraction thereof, to and including \$100,000
\$100,001 to \$500,000	\$993.75 for the first \$100,000 plus \$5.60 for each additional \$1,000.00, or fraction thereof, to and including \$500,000
\$500,001 to \$1,000,000	\$3,233.75 for the first \$500,000 plus \$4.75 for each additional \$1,000, or fraction thereof, to and including \$1,000,000
\$1,000,001 and up	\$5,608.75 for the first \$1,000,000 plus \$3.65 for each additional \$1,000, or fraction thereof

<b>Other Inspections</b>	<b>Fees*</b>
1. Inspections outside of normal business hours	\$330.00 for the first hour; \$165.00 per hour for each additional hour; charged in full-hour increments only
2. Re-inspection fees assessed under provisions of Section 305.8*	\$165.00 per hour; charged in full-hour increments only
3. Inspections for which no fee is specifically indicated.	\$165.00 per hour; minimum charge—one hour
4. Additional plan review required by changes, additions or revisions to plans	\$165.00 per hour; minimum charge—one hour
5. For use of outside consultants for checking and inspections, or both.	Actual costs

\*Fees represent City of North Pole consultant costs--\$150/hour plus 10% administrative charge.

**Table 4. Electrical Permit Fees**

1. For the issuance of each electrical permit .....	\$23.50
2. For the issuing of each supplemental permit for which the original permit has not expired, been canceled, or finale .....	\$7.25

**System Fee Schedule**

*Note: The following do not include \$23.50 permit-issuing fee.*

**1. New Residential Buildings**

The following fees shall include all wiring and electrical equipment in or on each building, or other electrical equipment on the same premises constructed at the same time.

<b>Multifamily.</b> For new multifamily buildings (apartments and condominiums) having three or more dwelling units constructed at the same time, not including the area of garages, carports and accessory buildings, per square foot (0.09 m <sup>2</sup> ).....	\$0.050
<b>Single- and two-family.</b> For new single- and two-family residential buildings constructed at the same time and not including the area of garages, carports and accessory buildings, per square foot (0.09 m <sup>2</sup> ) .....	\$0.056
For other types of residential occupancies and for alterations, additions and modifications to existing residential buildings, use the Unit Fee Schedule.	

**2. Private Swimming Pools**

For new private, in-ground swimming pools for single-family and multi-family occupancies, including a complete system of necessary branch circuit wiring, bonding, grounding, underwater lighting, water pumping and other similar electrical equipment directly related to the operation of a swimming pool, each pool.....	\$49.50
--	---------

**3. Carnivals and Circuses**

Carnivals, circuses, or other traveling shows or exhibitions utilizing transportable-type rides, booths, displays and attractions	
For electrical generators and electrically driven rides, each .....	\$23.50
For mechanically driven rides and walk-through attractions or displays having electric lighting, each .....	\$7.25
For a system of area and booth lighting, each.....	\$7.25
For permanently installed rides, booths, displays and attractions, use the Unit Fee Schedule.	

**4. Temporary Power Service**

For a temporary service pole or pedestal, including all pole or pedestal-mounted receptacle outlets and appurtenances, each .....	\$23.50
For a temporary distribution system and temporary lighting and receptacle outlets for construction sites, decorative lights, Christmas tree sales lots, fireworks stands,.....	\$12.30

## Unit Fee Schedule

*Note: The following do not include \$23.50 permit-issuing fee.*

### 1. Receptacle, Switch and Light Outlets

For receptacle, switch, light or other outlets at which current is used or controlled, except services, feeders and meters:

First 20 fixtures, each .....	\$1.10
Additional fixtures, each .....	\$0.73

*Note: For multi-outlet assemblies, each 5 feet (1524 mm) or fraction thereof may be considered as one outlet.*

### 2. Lighting fixtures

For lighting fixtures, sockets or other lamp-holding devices: first 20 fixtures, each .....	\$1.10
Additional fixtures, each .....	\$0.73
For pole or platform-mounted lighting fixtures, each .....	\$1.10
For theatrical-type lighting fixtures or assemblies, each .....	\$1.10

### 3. Residential Appliances

For fixed residential appliances or receptacle outlets for same, including wall-mounted electric ovens; counter-mounted cooking tops; electric ranges; self-contained room, console or through-wall air conditioners; space heaters; food waste grinders; dishwashers; washing machines; 10 water heaters; clothes dryers; or other motor-operated appliances not exceeding 1 horsepower (HP) (746 W) in rating, each.....

\$4.75

*Note: For other types of air conditioners and other motor-driven appliances having larger electrical ratings, see Power Apparatus.*

### 4. Nonresidential Appliances

For nonresidential appliances and self-contained factory-wired, nonresidential appliances not exceeding 1 horsepower (HP), kilowatt (kW) or kilovolt-ampere (kVA), in rating, including medical and dental devices; food, beverage and ice cream cabinets; illuminated show cases; drinking fountains; vending machines; laundry machines; or other similar types of equipment, each.....

\$4.75

*Note: For other types of air conditioners and other motor-driven appliances having larger electrical ratings, see Power Apparatus.*

### 5. Power Apparatus

For motors, generators, transformers, rectifiers, synchronous converters, capacitors, industrial heating, air conditioners and heat pumps, cooking or baking equipment and other apparatus, as follows: Rating in horsepower (HP), kilowatts (kW), kilovolt-amperes (kVA) or kilovolt-amperes-reactive (kVAR):

Up to and including 1, each.....	\$4.75
Over 1 and not over 10, each .....	\$12.30
Over 10 and not over 50, each .....	\$24.60

Over 50 and not over 100, each .....	\$49.50
Over 100, each .....	\$74.50

*Notes:*

1. For equipment or appliances having more than one motor, transformer, heater, etc., the sum of the combined ratings may be used.
2. These fees include all switches, circuit breakers, contactors, thermostats, relays and other directly related control equipment.

**6. Busways**

For trolley and plug-in-type busways, each 100 feet (30 480 mm) or fraction thereof .....	\$7.25
---	--------

*Note: An additional fee is required for lighting fixtures, motors and other appliances that are connected to trolley and plug-in-type busways. A fee is not required for portable tools.*

**7. Signs, Outline Lighting and Marquees**

For signs, outline lighting systems or marquees supplied from one branch circuit, each .....	\$24.60
--	---------

For additional branch circuits within the same sign, outline lighting system or marquee, each.....	\$4.75
--	--------

**8. Services**

For services of 600 volts or less and not over 200 amperes in rating, each.....	\$30.50
For services of 600 volts or less and over 200 amperes to 1,000 amperes, each.....	\$62.15
For services over 600 volts or over 1,000 amperes in rating, each.....	\$124.30

**9. Miscellaneous Apparatus, Conduits and Conductors**

For electrical apparatus, conduits and conductors for which a permit is required but for which no fee is herein set forth .....	\$18.20
---	---------

*Note: This fee is not applicable when a fee is paid for one or more services, outlets, fixtures, appliances, power apparatus, busways, signs or other equipment.*

**10. Other Inspections and Fees**

A. Inspections outside of normal business hours, per hour (minimum charge, two hours)* .....	\$330.00
B. Re-inspection fees assessed under provisions of Section 305.8, per inspection* ..	\$165.00
C. Inspections for which no fee is specifically indicated, per hour (minimum charge, one hour)* .....	\$165.00
D. Additional plan review required by changes, additions or revisions to plans or to plans for which an initial review has been completed (minimum charge--one hour)* .....	\$165.00

\*Reflects the Building Department's actual cost for consultant costs plus a 10% administrative fee.

**Table 5. Mechanical Permit Fees**

**Permit Issuance and Heaters**

1. For the issuance of each mechanical permit.....	\$23.50
2. For the issuing of each supplemental permit for which the original permit has not expired, been canceled, or finale .....	\$7.25

**Unit Fee Schedule**

*Note: The following do not include \$23.50 permit-issuing fee.*

**1. Furnaces**

For the installation or relocation of each forced-air or gravity-type furnace or burner, including ducts and vents attached to such appliance, up to and including 100,000 Btu/h (29.3 kW)	\$14.80
For the installation or relocation of each forced-air or gravity-type furnace or burner, including ducts and vents attached to such appliance over 100,000 Btu/h (29.3 kW).....	\$8.20
For the installation or relocation of each floor furnace, including vent.....	\$14.80
For the installation or relocation of each suspended heater, recessed wall heater or floor-mounted unit heater .....	\$14.80

**2. Appliance Vents**

For the installation, relocation or replacement of each appliance vent installed and not included in an appliance permit .....	\$7.25
--	--------

**3. Repairs or Additions**

For the repair of, alteration of, or addition to each heating appliance, refrigeration unit, cooling unit, absorption unit, or each heating, cooling, absorption or evaporative cooling system, including installation of controls regulated by the Mechanical Code .....	\$13.70
---	---------

**4. Boilers, Compressors and Absorption Systems**

For the installation or relocation of each boiler or compressor to and including 3 horsepower (10.6 kW), or each absorption system to and including 100,000 Btu/h (29.3 kW).....	\$14.70
For the installation or relocation of each boiler or compressor over 3 horsepower (10.6 kW) to and including 15 horsepower (52.7 kW), or each absorption system over 100,000 Btu/h (29.3 kW) to and including 500,000 Btu/h (146.6 kW) .....	\$27.15
For the installation or relocation of each boiler or compressor over 15 horsepower (52.7 kW) to and including 30 horsepower (105.5 kW), or each absorption system over 500,000 Btu/h (146.6 kW) to and including 1,000,000 Btu/h (293.1 kW) .....	\$37.25
For the installation or relocation of each boiler or compressor over 30 horsepower (105.5 kW) to and including 50 horsepower (176 kW), or each absorption system over 1,000,000 Btu/h (293.1 kW) to and including 1,750,000 Btu/h (512.9 kW) .....	\$55.45
For the installation or relocation of each boiler or compressor over 50 horsepower (176 kW), or each absorption system over 1,750,000 Btu/h (512.9 kW) .....	\$92.65

**5. Air Handlers**

For each air-handling unit to and including 10,000 cubic feet per minute (cfm) (4719 L/s), including ducts attached thereto .....	\$10.65
<i>Note: This fee does not apply to an air-handling unit which is a portion of a factory-assembled appliance, cooling unit, evaporative cooler or absorption unit for which a permit is required elsewhere in the Mechanical Code.</i>	
For each air-handling unit over 10,000 cfm (4719 L/s) .....	\$18.10

**6. Evaporative Coolers**

For each evaporative cooler other than portable type .....	\$10.65
--	---------

**7. Ventilation and Exhaust**

For each ventilation fan connected to a single duct .....	\$7.25
For each ventilation system which is not a portion of any heating or air-conditioning system authorized by a permit.....	\$10.65
For the installation of each hood which is served by mechanical exhaust, including the ducts for such hood.....	\$10.65

**8. Incinerators**

For the installation or relocation of each domestic-type incinerator .....	\$18.20
For the installation or relocation of each commercial or industrial-type incinerator ..	\$14.50

**9. Miscellaneous**

For each appliance or piece of equipment regulated by the Mechanical Code but not classed in other appliance categories, or for which the fee is listed in the table...	\$10.65
---	---------

**10. Other Inspections and Fees**

A. Inspections outside of normal business hours, per hour (minimum charge, two hours)* .....	\$330.00
B. Re-inspection fees assessed under provisions of Section 305.8, per inspection* ..	\$165.00
C. Inspections for which no fee is specifically indicated, per hour (minimum charge, one hour)* .....	\$165.00
D. Additional plan review required by changes, additions or revisions to plans or to plans for which an initial review has been completed (minimum charge--one hour)* .....	\$165.00

\*Reflects the Building Department’s actual cost for consultant costs plus a 10% administrative fee.

**Table 6. Plumbing Permit Fees**

**Permit Issuance and Heaters**

3. For the issuance of each plumbing permit.....	\$23.50
4. For the issuing of each supplemental permit for which the original permit has not expired, been canceled, or finale .....	\$7.25

**Unit Fee Schedule**

*Note: The following do not include \$23.50 permit-issuing fee.*

**11. Fixtures and Vents**

For each plumbing fixture or trap or set of fixtures on one trap (including water, drainage piping and backflow protection thereof) .....	\$9.80
For repair or alteration of drainage or vent piping, each fixture .....	\$4.75

**12. Sewers, Disposal Systems and Interceptors**

For each building sewer and each trailer park sewer .....	\$24.65
For each cesspool .....	\$37.25
For each private sewage disposal system .....	\$74.50
For each industrial waste pretreatment interceptor, including its trap and vent, excepting kitchen-type grease interceptors functioning as fixture traps .....	\$19.90
Rainwater systems-per drain (inside building).....	\$9.80

**13. Water Piping and Water Heaters**

For installation, alteration, or repair of water piping or water-treating equipment, or both, each .....	\$4.75
For each water heater including vent .....	\$12.30
For vents only, see Table 3-C	

**14. Gas Piping Systems**

For each gas piping system of one to five outlets .....	\$6.15
For each additional outlet over five, each .....	\$1.10

**15. Lawn Sprinklers, Vacuum Breakers and Backflow Protection Devices**

For each lawn sprinkler system on any one meter, including backflow protection devices thereof .....	\$14.80
For atmospheric-type vacuum breakers or backflow protection devices not included in Item 1	
1 to 5 devices .....	\$12.30
Over 5 devices, each.....	\$2.25
For each backflow-protection device other than atmospheric-type vacuum breakers:	
2 inches (50.8 mm) and smaller .....	\$12.30
Over 2 inches (50.8 mm).....	\$24.65

**16. Swimming Pools**

For each swimming pool or spa:

Public pool.....	\$91.25
Public spa .....	\$60.75
Private pool.....	\$60.75
Private spa .....	\$30.25

**17. Miscellaneous**

For each appliance or piece of equipment regulated by the Plumbing Code but not classed in other appliance categories, or for which no other fee is listed in this

code .....	\$9.80
------------	--------

**18. Other Inspections and Fees**

A. Inspections outside of normal business hours, per hour (minimum charge, two hours)* .....	\$330.00
B. Re-inspection fees assessed under provisions of Section 305.8, per inspection* ..	\$165.00
C. Inspections for which no fee is specifically indicated, per hour (minimum charge, one hour)* .....	\$165.00
D. Additional plan review required by changes, additions or revisions to plans or to plans for which an initial review has been completed (minimum charge--one hour)* .....	\$165.00

\*Reflects the Building Department's actual cost for consultant costs plus a 10% administrative fee.

**Table 7. Storm Water Permit Fees**

<b>Storm Water Fee Schedule</b>	<b>Amount</b>	<b>Land Disturbance</b>
SWPPP Plan Review	\$480	1 acre or greater
SWPPP Site Inspection	\$240	1 to 5 acres
SWPPP Site Inspection	\$480	5 to 10 acres
SWPPP Site Inspection	\$720	10 to 20 acres
SWPPP Site Inspection	Actual Cost	Over 20 acres
Storm Water Treatment/Connection/ Discharge Plan Review	\$300	Includes engineering plan review, developer agreement, and site inspection
Cooling Water Discharge and Connection to Storm Drain System	\$500	Annual Fee

**Table 8. Utility Tie-In Fees**

<b>Service</b>	<b>Fee</b>
Water Connection Inspection Fee	\$50
Sewer Connection Inspection Fee	\$50
Residential and commercial properties water and sewer fees shall be the following	
Water tie-in fee – water line 3/4 inches to 2 inches	\$200
Sewer tie-in fee – water line 3/4 inches to 2 inches	\$200
Water tie-in fee – water line greater than 2 inches up to 4 inches	\$250
Sewer tie-in fee – water line greater than 2 inches up to 4 inches	\$250
Water tie-in fee– water line greater than 4 inches	\$300
Sewer tie-in fee– water line greater than 4 inches	\$300

**Table 9a. Street Excavation and Work within the Public Rights-of-Way  
and Easements Permit Application Process**

All contractors submitting plans for review are required to comply with the following procedures.

The administrative charge for a permit is \$50.00.

Cost of a permit: When the City deems at its sole discretion that plan review and inspection of a construction project exceeds the expertise of the City to perform, the City shall retain external expertise to perform plan review and inspections services. When the City determines that a project requires the use of external expertise to conduct plan review and/or inspections, the City shall negotiate a Reimbursable Services Agreement (RSA) between the City and the construction contractor. The RSA shall fully cover the City's costs plus a five (5) percent administrative charge.

1. Permits are valid for one hundred twenty (120) days, after which they automatically become void and must be updated and re-approved by the City before any construction will be permitted.
2. The Contractor shall have one (1) copy of the approved permit, the approved construction plans, and the approved traffic control plan (if required) at the job site at all times.
3. Two (2) complete sets of prints of the project drawings or schematics shall be submitted to the City for review.
4. The following items shall be included on the plan:
  - a. North arrow and scale
  - b. Existing and proposed streets with names and widths
  - c. Driveway locations with accurate width
  - d. Easement and right-of-way information recorded with the Borough
  - e. All existing utilities (type and location)
  - f. Proposed utility location showing approximate dimensions in relation to right-of-way and/or easement line
  - g. Legend of symbols
  - h. Minor construction notes indicating the type of excavation and or boring under streets and driveways or other permanent structures. Additional information may be required by the City as necessary.
  - i. A traffic control plan will be required for all work that includes temporary lane reductions or closures. The traffic control plan shall be approved by the City of North Pole prior to any permit being issued.

**Table 9b. Excavation Bond**

<b>Type of Work</b>	<b>Square feet of project</b>	<b>Total</b>
Road, unpaved; \$75/square foot (\$1,000 minimum)	sq. ft.	\$
Road, paved; \$150/square foot (\$5,000 minimum)	sq. ft.	\$
Sidewalk, unpaved; \$25/square foot (\$500 minimum)	sq. ft.	\$
Sidewalk, paved; \$75/square foot (\$2,000 minimum)	sq. ft.	\$
Alley; \$50/square foot (\$1,000 minimum)	sq. ft.	\$
Road shoulder: \$10/square foot (\$1,000 minimum)	sq. ft.	\$
Other, e.g., City property, undeveloped right-of-way etc.; contact City	sq. ft.	\$
<b>Total</b>		<b>\$</b>
